Output on Printers, Proofers, digital Printsystems
Conversion into many file formats
Cmdline interface (OS Integration)
Redirection to Hotfolder and filesystem
Harlequin RIP integration (jobtickets)

* 3 Variants available

WHAT IS SMART WORKFLOW SYSTEM?

The Smart workflow system ensures a smooth workflow in the graphic printing industry. It is based on technologies from Adobe and Callas and is controllable via a web browser.

FEATURES

WebGUI > Customer Interface > automated data and order delivery by email and FTP
Write PDF > PDF Preflight > Extended analysis (bar codes, bleed and separation control, target /actual pdf comparison) > Output to printers, proofers and digital presses > File conversions in all major formats > Full integration of cmdline processing > File Transfer (FTP, SCP) > Imposition > Step and Repeat > PDF elements assembly > automatic archiving > RIP integration and more ...

MODULARITY AND SIMPLICITY DEFINE THE SYSTEM!

You need 100% security for your customers and orders.
Requires less time and gives more data security. This system has a number of new tools for checking your PDF print data. It makes cleaned and compressed data for every possible output without additional cost,

YOU ARE ALREADY ORGANIZED?

Integration with MIS systems and other Workflows is possible via „REST API“.
We offer a complete production automation and integration.

SURFACE

Control is the SmartWorkflowSystem entirely via the web browser.
Your employees use just one system that can organize your existing processes, instead of multiple systems - no more or less - the possibilities how far your system will go are up to you. Thus, striving for 100%.

TARGET GROUP

Advertising agencies, marketing departments, digital printers, prepress companies, copy shops, LargeFormat Printers, Industry and others.

PRICING

We offer two pricing models: Buy a license and RentPerMonth.

CONTACT

Do you want a more concrete view of which route your PDF file in the SamrtWorkflowSystem takes? Ask us without obligation for a consultation and demonstration.
